Electricity---An Invaluable Aid in the Present Situation

Women are called upon for real service---the service of a well-run, economical household.

With the help of Electrical Appliances, the American woman can easily and efficiently do the entire work in her own home.

An Electric Vacuum Cleaner, with slight effort, and but small expense, will keep the whole house spotlessly clean.

An Electric Washing Machine will do a large family washing quickly, thoroughly, economically. Other Electrical conveniences are to be had for practically every household use.

Have you these aids to service in YOUR home? If not, call at our display room and let us show you our Electrical way for increasing convenience, leisure and economy.
